Jump Rope for Heart
Last Friday’s Jump Off was a brilliant display from all three stages. It has been fascinating to watch our students grow in confidence in skills and enthusiasm for skipping and Jump Rope for Heart. Congratulations and thanks to Mrs Lynch who organised and promoted the event. You can see from the pictures it was a hugely successful, fun event. Well done everyone.

Doing Things Together Day (DTT)
Yes I would like to take part in DTT. Please add me to the list as follows:

☐ I would love to compete in a group
☐ I would rather help out with an activity station

Doing Things Together
Don't forget Thursday 13th June is our next Doing Things Together Day. It runs from around 9.45 am until 1.10 pm. Parents can take part in one of two ways. The most fun way is to compete against the kids in a group. Alternatively we can always use a hand with activities that involve cooking or construction. If you would like to take part, simply complete the information slip on the front page of this newsletter and send to Mrs Grace, Kirstin Knight or myself and we will make arrangements.

Biggest Morning Tea
While the event did not attract as many community members as was hoped, the Biggest Morning Tea was held last Wednesday at Macksville Public School. Thanks so much to Dot and Stacey Welsh, their family members and the other volunteers who organised and set up the event. It took a great deal of work, and all for a good cause. Thanks also to our staff who supported the event. Entertainment was provided by our fabulous Recorder Group and an enthusiastic 3H. Fantastic effort.

Out And About At Macksville Public School

Get Active in 2013!
Here are some more fantastic ideas about how we can all get more active. Each week we will put in some little tips about getting healthy.

Why reduce television time?

- studies have shown we use less energy watching TV than sitting still
- TV influences the food choice of kids – Australia has a high rate of food advertising during children’s viewing hours
- TV replaces time a child can be active and enjoy physical activity
- there is an association between TV watching and being overweight
- 40% of children 5 – 12 years report watching an average of two hours or more of television or videos a day.

1U scientists
The budding scientists in 1U have been measuring weights. They were asked to design boats out of aluminium foil and plasticine. They then measured how many marbles their designs could carry. Lachlan was the winner with a huge 357 marbles in his foil boat!
